

BRELLA LIGHTS®

Premiere Patio Umbrella Lighting System

NEW

"In-Line" Light Design

6 & 8 RIB MODELS

CREATE THE PERFECT MOOD OR DECORATIVE EFFECT

When the sun goes down, that's when we really shine.

Brella Light are better than ever!

We're excited about our new "In-Line" light design. Put a few sets up in your showroom to create an inviting accent of depth and interest to your showroom setting. Your customers will immediately notice the dramatic effect that our distinctive and inexpensive lighting provides. They can continue to dine, entertain, even read on their patio long after the sun goes down. Installation is a snap. **Brella Lights** stays on the umbrella without worrying about reattachment, removal or storage every time the umbrella is opened or closed. Our power pod allows the umbrella to be quickly separated from the bottom pole when the umbrella is stored and they can use their favorite electrical appliance or toy at tabletop, too. Just sit back and enjoy your share of the accessory market.

*At night, **Brella Lights** illuminated in a window umbrella is a great way to make your window display stand out from the ordinary!*

Point Of Purchase Display

Conserve shelf space. Order a dump display. Holds 18 boxes.
8 Rib - BL108 / 6 Rib - BL106

Counter/Tabletop Merchandiser
8 Rib - BL200 / 6 Rib - BL201

*Creating various pyramid displays on a table or two will conserve shelf space and place **Brella Lights** in front of the customers as they pass through your showroom.*

INDOOR / OUTDOOR

FEATURES:

- **Choice of styles.** Two models designed to fit any size six or eight-rib umbrellas.
- **Quick easy, one-time installation.** Put it up and it stays on the umbrella.
- **Easy storage.** Simply close the umbrella and store.
- **Ambience.** The diffused lighting design offers soft subtle light that adds to any occasion.
- **Completely weatherproof.** U.L. approved specifically for attachment to a patio umbrella.
- **Convenience.** Each set includes spare fuses and bulbs.
- **20 lights per rib.** Should one light go out, the rest will remain illuminated.

SPECIAL FEATURE:

Your customer can sit back and enjoy their favorite electrical device right on their patio table with our patented power pod. So convenient for ...

... cooking appliance
... portable stereo
... television
... laptop
... etc..

Our simple objective is to put **Brella Lights** on every umbrella you have ever sold.
